

Choosing a new computer can be a confusing process, especially with all the different specifications that are available.

I supply laptops or full desktops systems and offer a full installation service in the home or office. I will ensure that you get a system that is suited to your needs.

I also supply Monitors, Printers, Scanners, Speakers, Software, Wireless and Wired Networks. All parts and components are purchased as ordered. This means that you get the latest equipment not something that has been sitting on a shelf for 6 months.

All desktops are built to order. If you need a more specialised personal computer such as:

- Dedicated Video Editing or Graphic Work
- Gaming Machine
- Music Composition
- Computers for DJ's

Please contact me for more information
